

Hardware? Software?

One question we frequently receive at trade shows is what type of software and hardware we use for our control systems. ACSI is independent, therefore unbiased and flexible in the selection of hardware and software. Depending on customer requirements, ACSI is able to use Single PLC control or Redundant PLC control. Decisions are based on fitness for use, best in class, support, and cost. ACSI always uses the best suited components to form a customer's unique control system. Below is a list of hardware and software we have implemented:

PLC:

Allen Bradley/Rockwell
Siemens
General Electric
Mitsubishi
Schneider/Modicon
Texas Instruments
Toshiba
Honeywell

HMI:

Cimplicity
CiTect
GE/Proficy
Intellution
PlantScape
RSView
Visual Basic
Win CC
Wonderware/Intouch
iFIX
Model Predictive Control
Experion

ACSI currently has systems installed in the USA, Canada, England, Scotland, France, Hungary, Mexico, China, Thailand, Indonesia, Brazil, Taiwan, India, Malaysia, the Philippines, Vietnam, Australia, Egypt, Saudi Arabia, UAE, Chile, Argentina, Trinidad, Finland, Dominican Republic, South Korea, Venezuela, Puerto Rico, and South Africa.

ACSI Training Series

******Basics of HMI Application Development, Maintenance, and Troubleshooting******

ACSI's 3 day Basics of HMI Applications training class is intended for Plant Engineers, Maintenance Technicians, and Electricians who need to maintain, troubleshoot, backup or make modifications to an existing Wonderware® InTouch application. Trainees may bring a copy of an existing InTouch application from their facility to use during class labs. (For daily training agenda, please email katiemarconi@acsitoledo.com.)

Cost: \$1,500.00 per person

Date: Flexible Scheduling, please contact us

******Historian Maintenance & Clients" Training Class ******

This training class is designed for plant personnel who want to better understand the operation of a Wonderware Historian (aka IndustrialSQL (InSQL)) and its associated Clients (aka ActiveFactory). Class topics will also include how to monitor the server's health; how to add or edit Tag storage parameters; and how to get to the data you need using the Client tools.

This training class is organized to also accommodate persons interested in attending only the 1 day "Clients" portion of the class.

Cost: Historian Maintenance & Clients Training Class (2 days) \$1,200 per student
Historian Clients Training Class (1 day) \$600 per student

Date: Flexible Scheduling, please contact us

Phone: (419) 843-4820 or **Email:** katiemarconi@acsitoledo.com

Meet ACSI Project Engineer Shaun Stewart

Hometown: Lima, Ohio

Education: Bachelors of Science with a concentration in Electro-Mechanical Engineering from Miami University of Ohio

Date Started: 5/12/14

Interests: Sports & Cars

Favorite Movies: Step Brothers, Joe Dirt, anything funny

Best thing about working at ACSI: The atmosphere

A Tribute To Tom Dixon

Many of our customers will fondly remember ACSI project engineer Tom Dixon. Tom sadly passed away in 2011 after a long battle with cancer. This summer his daughter Kerry was married in Toledo, Ohio. Friends from ACSI who attended the wedding wore ribbons displaying Tom's initials, "T.E.D," in tribute and remembrance of him. What an incredible touch to such a special day. Pictured is Kerry's invitation and the ribbon with ACSI colors. Tom is survived by his wife Laura and two children Kerry and Tommy. He is still greatly missed by all of us at ACSI and we all feel blessed to have known him.

ACSI's "The Taste Off"

Here at ACSI we love food and we love competition. So far in 2014 our Annual Chili Cook Off, Popcorn Pop Off and Hot Salsa tasting have been enjoyed by all!

Chili Cook Off

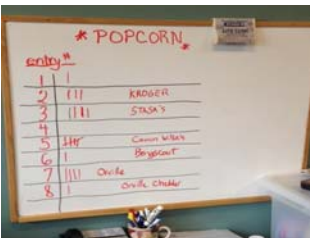

Favorite Spice: John Fetter
The Best: Rob Snider

The Most Original: Barbara Broer
The Most Overall Votes: Enson Yu

Pop Corn Pop Off

Thursday evenings, some of the ACSI engineers like to kick back by playing Shuffle Board. A popular snack to bring was...you guessed it...popcorn. Everyone seemed to prefer a different brand. We decided to do a blind tasting during lunch in the kitchen and settle the debate once and for all. The winner was...Cousin Willie's!

Hot Salsa Tasting

Some of the brave ACSI employees who sampled the Ghost Pepper Salsa included Frank Lepkowski, Joel Helbig, Brad Bowe, Brian Steinhauser, Katie Marconi, Rick Baechle, and Rob Snider.

So what do you think ACSI's next food competition should be? Email: katiemarconi@acsitoledo.com. If your idea is selected, we will send you an ACSI shirt!
